

MEADOWLARK INITIATIVE

WHAT'S BEEN LOST

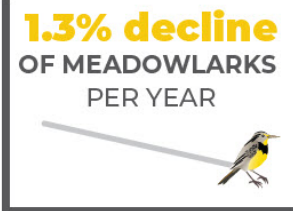

Has been converted.

**ONLY
1 OUT OF 3
FARMS
PRODUCE
CATTLE**

Only two of five farms produced cattle in 2002 in North Dakota; in 2017, just one of every three farms produced cattle.

53% population loss in grassland birds since 1970 (approximately 720 million birds).

Of the nearly 5 million natural wetland acres, 60% have been converted or lost.

WHAT'S AT STAKE

1 in 4
bumble
bee
species
at risk

**LOSS OF
RANCHING HERITAGE**

50%
Meadowlarks
gone in the
next 45 years

HOW CAN THE MEADOWLARK INITIATIVE HELP

STABLE WILDLIFE AND POLLINATOR POPULATIONS

Healthy Land, Water and Community
