

GRAZE TO GAINS

FORAGE PROGRAM FOR BEEF PRODUCERS

Graze to Gains is currently enrolling cattle producers in the Northern Great Plains and Central Plains.

PROGRAM DETAILS

- Implement a cover crop, forage, or range planting, maintaining perennials for at least 5 years.
- Allow soil sampling (up to twice per year) and GPS mapping of the operation
- Made for cow calf producers who want to improve their grazing.

No individual data will be shared outside of the project. AgSpire will own aggregated data to protect privacy.

Learn More at [AgSpire.com](https://www.agspire.com)

Graze to Gains rewards producers for promoting stewardship and sustainable grazing on their operation.

PRODUCER BENEFITS

Technical Assistance: Our advisory team provides one-on-one guidance and technical assistance to help you implement seedings

Practice Incentives: Producers could receive up to \$80/acre depending on implementation of cover crops, forage or range plantings
